

LEARN ITS ... Everyone must:

- read to an adult 5 times a week (or more) and get them to tick a star in your planner
- practise your red words 3 times a week (these words just have to be learnt and it will make writing easier for you once you've learnt them!) 
- practise your maths facts – this term our focus is on counting to 10 and above, try to get to 110
- practise knowing the pairs of numbers which make 10 (and then 20)

The following learning challenges are optional. If you have a Children's University passport you can have 1 hour added for each of the activities that you complete from those listed below.

<p>Weeks 1 and 2</p> 	<p>Where am I?</p> <p>Find out about where you live. Is it a house, a flat, or a bungalow? Draw a picture of your house. Find out your address, and then write it underneath. Learn your address and don't forget it!</p>
<p>Weeks 3 and 4</p> 	<p>How do I keep myself safe?</p> <p>Talk with your family about things that might be dangerous in your house (for babies, for children or for older people). Draw pictures and write labels all about keeping safe at home. eg covers on sockets for babies and children.</p>
<p>Weeks 5 and 6</p> 	<p>Family Portraits</p> <p>Think about the members of your family. Draw a family portrait, maybe showing a special time together. Eg family meal, picnic at the beach. Include all the members of your family, and remember to frame your portrait.</p>

You could make a little book or put all the information on a poster. Please bring your finished work into school by October 15th.

Don't forget to look at your Knowledge Organisers – Geography and Science will be sent home this term. Can you score top marks in the knowledge quizzes?
